How-To Instructions

Temperature: 350°F degrees

Pressure: Medium

1. Prepare SimStitch® designs for application.
2. Place SimStitch® backgrounds – adhesive side down – onto the 6 mil non-stick cover sheet.
3. Place SimStitch® foregrounds onto backgrounds.
4. Cover with a Kraft paper cover sheet.
5. Press for 20 seconds.
6. Set aside to cool.
7. Place heat printing pillow on press.
8. Load buttoned garment onto heat press.
9. Unbutton top two buttons.
10. Preheat to remove moisture and wrinkles from garment using a Kraft cover sheet.
11. Place the portion of the SimStitch® design that goes onto the left panel of the jersey.
12. Slightly lift the left panel of the jersey enough to place the SimStitch® design that goes onto the right panel.
13. With jersey closed, make sure the SimStitch® design is evenly lined up on both panels of the jersey and add remaining design element (player number).
14. Press for 30 seconds using a Kraft cover sheet.
15. Peel hot.
